

THE ATTIC

Pop Punk / Alternative Rock from Austria

THE ATTIC is a Pop Punk / Alternative Rock-formation based in Austria. The band was founded in 2014, with their debut album *Welcome to the Attic* being released five years later in 2019. Their influences range from late **90s Alternative Rock** to early **2000s Pop Punk** and feature fast-paced drum beats, heavy electric guitars and provocative lyrics. The band has since released multiple singles and music videos including their latest hits *November the 1st* (2023) or *Fireflies* (2024).

Having already supported bands like **Live of Agony**, **Doyle** or **Declan Welsh and the Decadent West**, the bands live performance has proven to entertain various audiences. After being crowned “**Headliner of the Year**” by austrian rock-radio station **Radio 88.6** in September of 2023 the band is now ready to hit the road again, promoting their **latest and upcoming material**.
